

Diploma in Global Health Pharmacy

Introduction:

Global health disparities continue to affect millions of people around the world, particularly in low- and middle-income countries (LMICs) where access to essential medicines and healthcare services is limited. The **Diploma in Global Health Pharmacy** is designed to empower pharmacists and healthcare professionals to tackle these disparities by implementing pharmaceutical interventions that promote health equity. Through this program, participants will develop a deep understanding of global health systems, policies, and practices, enabling them to address health challenges in underserved communities worldwide.

Key Highlights:

- Understand global health issues and disparities, focusing on the role of pharmacists in improving healthcare access.
- Gain practical experience in designing pharmaceutical interventions for diverse healthcare settings.
- Explore global health policies and advocacy, including strategies to promote equitable access to medicines and healthcare services.

Eligibility:

Open to candidates with 16 years of education. pharmacists, pharmacy technicians (16 years of education), medical professionals, allied health professionals, and public health disciplines are encouraged to apply.

Fee Structure:

- Tuition: 60,000 PKR per semester
- One-time admission fee: 15,000 PKR
